

## 1. PURPOSE

The purpose of this Policy is to protect the company's information assets from all threats, whether internal or external, deliberate or accidental, to ensure operations continuity, minimize damage and maximize return on investments and relevant industry opportunities.

## 2. SCOPE

This policy applies to all our employees both shore and onboard, contractors, vendors and anyone who has permanent or temporary access to our systems and hardware.

This policy is designed to guide employees towards understanding and adhering to best security practices that are relevant to their job responsibilities.
